

# MICE TIMES

## Other Faiths

**As you might have heard, in school we are learning about other faiths and the similarities between their religions and ours. Our friend, Pritpal, visited years 3 & 5 to share his Sikh faith and, later in the year, we'll welcome back 'Judaism with Jeremy'.**

**Year 5&6 went to the Manchester Buddhist Centre, while years 1 & 2 went to the Jewish Museum!**

^ Us and yr 6 at the Buddhist centre!^

## Topic Trips & Visits

**On the 3rd of October, year 2 went to Sherwood forest, where unfortunately, Martha lost her tie, but Matthew kept hold of his!**

**As part of their exciting topic 'The sea', Year 4 went to Formby beach to learn all about rivers and the coast!**

**Year 6 welcomed United Utilities at the beginning of their topic, 'Will I ever see the water I drink again?' We learnt about the entire water cycle, from evaporation to sewage treatment and 'fat bergs'. Year 6 say they're actually going to write a report on it any day now!**

## Foundation Stage

**As you may have noticed, this year, the nursery children now have an outdoor classroom, leaving space in the unit, for lots of new reception children.**

**In the reception class, the teachers are excited to have 45 children to teach. They're learning about 'Why we're all so special' as their topic. The children have really enjoyed looking at photos of themselves from when they were younger.**

**Also, the 29 children of our nursery are already settled. They're all staying full time now, which means that they can all stay until lunchtime for their dinner!**
